HAIRDRESSING

## 2010 CREATIVE ACADEMY COURSES

### Classic Precision.

**Cut:** This course is designed for 1st and 2nd year apprentices. Through practical workshops you will be taught fundamental techniques which are crucial to anyone starting out in hairdressing. Through demonstrations and practical sessions you will learn to reinforce and refine previously learnt techniques to give you a technical edge that results in even more accurate cutting. Basic cutting skills are a prerequisite for this course.

**Colour:** This course will allow you to develop consistent methodologies, efficiency, colour techniques, design and structure. It is designed for 1st & 2nd year apprentices. Basic colour skills are a prerequisite for this course.

### Session and Editorial.

Are you excited by fashion and the world of editorial? If so, this course is perfect for you. Designed for anyone who not only wants to further their Long Hair know-how but perfect their editorial and session skills. This course will take you from absolute fundamentals through to creative freedom.

### Contemporary Classics.

Contemporary Classics teaches the technological foundation from which all advanced techniques are based. A thorough understanding of these techniques is the key to further progression. Contemporary Classics is suitable for anyone wishing to upgrade, strengthen and improve their cutting or colouring techniques. The course is ideal for 3rd and 4th year apprentices through to senior hairdressers wanting to do a refresher.

### Speed Colour.

This two day course is designed for the experienced technician who wants to increase productivity and reduce the time clients spend in the salon. It covers a new approach to consultation, combining the most effective elements of colouring to produce an outstanding result in minimum time. Day 1 is theory, day 2 is a practical workshop.

### Creative Cut & Colour.

This course is designed for the advanced hairdresser and really is the ultimate example of TONI&GUY creative thinking at its best. It has been created to accommodate new fashion trends in hair as they develop. With particular emphasis on image, this highly motivational course is the perfect vehicle for exposing students to new and ground breaking ideas.

### Leadership.

This one-day course is designed for people managing a salon or aiming to. A great course to build individual potential and performance. Presented by Dennis Langford, Managing Director, TONI&GUY Australia.

### New Creative Collection Release Cut & Colour.

The international TONI&GUY new season collection release direct from London! The course is a combination of seminars and workshops, brought to you by Australia's leading TONI&GUY educators, in both styling and technical. Option to attend, one, two or three days.

### Trends.

An exciting opportunity to look and learn from the best, in a two hour session. Each evening seminar is unique, offering various combinations of trends, cuts, colours, advanced styles and men's hair.

### Photographic Styling Course

The TONI&GUY Photographic Course is an entry level program, designed to teach the fundamental skills of photographic styling to someone who is looking to pursue a career in session styling, film or television, enter photographic competitions, develop a general understanding of how editorials are constructed or experiment in front of the camera.

### Men's Hair.

This course is designed for hairdressers who want to strengthen their techniques. To get the most from this course, students should be qualified Stylists and have an understanding of men's hairdressing. This course will give an insight into how TONI&GUY pushes boundaries with regards to men's fashion and cutting/colouring techniques.
